

ABHISHEK PANDEY

B. Tech CSE Student | Delhi, India

9267993759 | abhishekpandey9267@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

OBJECTIVE

Motivated B. Tech CSE student at GN Group of Institutions (AKTU), building strong skills in the MERN stack and web development. Seeking opportunities to apply hands-on project experience, solve real-world problems, and grow as a Full Stack Developer.

EDUCATION

Bachelor of Technology — Computer Science & Engineering
GN Group of Institutions, Greater Noida | AKTU University | Expected: 2027

TECHNICAL SKILLS

Languages: C, Java, JavaScript (ES6+)

Web: HTML5, CSS3, React.js, Tailwind CSS

Frameworks: Node.js, Express.js

Database: MongoDB

Tools: Git, GitHub, VS Code, Vercel, Render

Concepts: REST APIs, Responsive Design, DOM Manipulation, CRUD, JWT Authentication, MVC

Core Skills: DSA, OOP, Problem Solving, Teamwork

PROJECTS

Rock Paper Scissors Game — HTML, CSS, JavaScript

- Built an interactive game with score tracking and random computer moves.

E-Commerce Website — React.js, REST API

- Developed a React-based e-commerce app with a built-in product API, cart functionality, and product filtering.

Portfolio Website — React.js, Vite, Tailwind CSS, Node.js, Express.js, MongoDB, Framer Motion

- Developed a fully responsive MERN portfolio website using React, Vite, Tailwind CSS, Framer Motion, Node.js, Express.js, and MongoDB with reusable components and a modular architecture.
- Integrated a full-stack contact form with REST APIs, MongoDB Atlas, and deployed the application on Vercel and Render, achieving Lighthouse scores of **94 Performance**, **96 Accessibility**, **100 Best Practices**, and **100 SEO**.

INTERNSHIP & CERTIFICATIONS

Conceptual CAE Design & Simulation — Virtual Internship

AICTE – EduSkills (Supported by Altair) | Jan 2026 – Mar 2026 | Grade: E (Excellent) | Cert ID: 4e89a231fb9d915cb879.

- Completed a 10-week government-recognised virtual internship under MoE's National Internship Portal.
- Gained foundational exposure to CAE design and engineering simulation tools.

MERN Stack Development — Certified Coursework

- Learned MongoDB, Express.js, React.js, and Node.js
- Built and submitted a GitHub-based MERN stack project.
- Completed 30-hours practical training at the Greater Noida College

GenAI Powered Data Analysis Job Simulation—Tata iQ | Forage | Aug 2026

- Completed a job simulation focused on AI-powered data analytics and strategy development for financial services.
- Conducted GenAI-assisted EDA and risk profiling, identifying data-quality issues and delinquency risk indicators for predictive modeling.
- Proposed a no-code delinquency prediction framework and designed an AI-driven collections strategy using agentic AI, automation, ethical AI, and regulatory considerations.

EXTRA-CURRICULAR

- Actively learning the MERN stack through self-directed study and daily coding practice.
- Maintaining a public GitHub portfolio with personal projects and consistent commits.
